Committed to supplying innovative, specialised products for every industry

Committed to supplying innovative, specialised products

Solar Solve is a UK-based company that specialises in manufacturing high-quality window blinds and solar screens for the marine, transport and industrial sectors. With over 45 years of experience, **Solar Solve** is known for its commitment to excellence and reliability.

The company is dedicated to delivering innovative and customised solutions that meet clients' needs, adhering to strict standards of safety, durability, and performance.

Solar Solve continually invests in advanced technology and processes, ensuring its products remain at the forefront of the industry. Alongside its focus on quality and innovation, **Solar Solve** provides personalised, world-class customer service, ensuring clients receive the necessary support to maximise the benefits of their **Solar Solve** products.

Tailored solutions for every industry

MARINE

If you need a Type Approved solar control solution for your marine vessel then talk to Solar Solve!

TRANSPORT

Our transparent window screens are used in operator cabins, enclosures, booths, driver cabs.

CONSTRUCTION

Glare and heat protection is also essential for maintaining a safe operational environment.

AVIATION

Glare caused by the sun can be a dangerous distraction in air traffic control towers.

OFFSHORE

Type approved solar control solutions, suitable for every window from operator cabins to crew sleeping quarters.

Solutions to meet our customers' needs

ANTI-GLARE ROLLER BLINDS

Solar Solve's flagship product is its Type Approved window blinds and solar roller screens. The SOLASAFE® and SOLAROLA® are designed to provide optimal shading, reduce glare and heat, and improve the overall comfort and operational safety.

DIMOUT ROLLER BLINDS

Solar Solve's dimout roller blinds perfect for providing privacy to windows in various interior areas. The dimout blinds are available in a variety of colours and can be custom-made to fit any size and shape of window. They are also designed to be easy to operate, with a range of manual and motorized options available, depending on the application. Privacy and style made simple.

BLACKOUT ROLLER BLINDS

Solar Solve's blackout blinds are specialised window coverings designed to completely block out light, creating a dark environment ideal for sleeping or rest. As with all Solar Solve products, the blackout blinds range is designed with customers in mind to ensure that it is easy to install and operate.

WINDOW FILMS

Solar Solve's window films are specialised coatings that are applied to windows to improve their performance and appearance. The films are designed to reduce heat and glare, provide UV protection, enhance privacy, and add aesthetic value to windows in various industries. The window films are available in a variety of styles and finishes, including reflective and frosted options.
